ACKNOWLEDGEMENTS

The Ship Creek Framework Planning process has involved hundreds of citizens, whose time, insights and ideas were invaluable to the design team.

The project was led by the Mayor’s office and the Anchorage Economic Development Corporation. Our key liaisons were Larry Baker in the Mayor’s office and Jon Bittner at AEDC.

The Alaska Railroad Corporation’s Jim Kubitz provided invaluable guidance on its lands, plans and operations. In addition, the team received tremendous support from other Municipal organizations and Community groups.

Thanks to all.
