

UMED DISTRICT PLAN KICK-OFF MEETING | MARCH 28, 2013

Welcome to the UMED District Plan Update! The UMED District Plan will guide growth and development through the implementation of the policies and strategies in Anchorage 2020 – Anchorage Bowl Comprehensive Plan and other approved community plans, policies and programs to support a sustainable and livable UMED District. The plan also will provide a framework for continued development of educational, health, residential, commercial, and public infrastructure and programs in support of the various organizations and their master planning efforts.

The Municipality of Anchorage invites you to attend the UMED District Plan Kick-off Meeting to learn more about the project, our team, and to share your thoughts, visions, and desires for the future of the UMED District! Please share this information with your friends, co-workers, neighbors, and tenants.

This community-based planning effort will be supported by an urban design and technical planning team skilled in working with sophisticated institutional stakeholders and communities that value their culture and heritage. Our planning team will be led by Page&Turnbull, a full-service architecture and planning firm.
