## Anchorage Signal System, Signage, and Safety Improvements

Project ID TRA55103 Department Traffic Engineering

Project Type Improvement Start Date May 2020

District Assembly: Areawide, HD-SD: End Date December 9999

Community-wide

Community Council

**ARDSA Councils** 

### Description

This program reconstructs and upgrades the Anchorage traffic system within the Anchorage Roads & Drainage Service Area (ARDSA). This project is part of an annual program to construct priority improvements that will improve safety and traffic flow as identified by the Traffic Engineering Department through its annual review of traffic and crash data. Improvements may include replacing and/or upgrading signals, turning lanes and lights, signs, safety systems, site assessment devices, traffic detection loops, and any other equipment needed to upgrade the system.

#### Comments

Design and construction funding is proposed annually through road bonds. Because of age, many traffic signals, safety systems, site assessment devices, striping, and sign facilities in Anchorage have deteriorated to the point that replacement is required to keep the system operating.

Upgrades, primarily related to technological advancements, are available to improve system efficiency and reduce annual operation and maintenance costs, as well as, reduce the frequency and severity of accidents. The operations and maintenance (O&M) will be used to maintain the improved infrastructure.

## **School Zone Safety**

Project ID PME10953 Department Traffic Engineering

Project Type Upgrade Start Date June 2021

District Assembly: Areawide, HD 50: Anchorage End Date December 2040

Areawide

Community ARDSA Councils

Council

### **Description**

This project is a high priority for State of Alaska funding.

The project will upgrade and/or modify school zone signage, signals, and markings to meet Federal, State, and Local requirements. Projects may also include improvements to the School Walking Routes. The schools that are under consideration for improvements with the 2024 bond funding are College Gate, Williwaw, Tudor, and Creekside Park Elementary.

#### Comments

The Traffic Engineering Department monitors and identifies optimal locations for safety improvements. Population changes and area development can dramatically impact traffic patterns of nearby schools requiring installation of various traffic calming features. The effort to improve safety around the Anchorage area schools is envisioned as a joint funding effort of local road bonds and state grants.

# **Traffic Calming and Safety Improvements**

Project ID TRA55113 Department Traffic Engineering

Project Type Improvement Start Date May 2020

District Assembly: Areawide, HD-SD: End Date December 9999

Community-wide

Community Council

**ARDSA Councils** 

## **Description**

The program constructs traffic calming and safety improvements throughout the Anchorage Roads & Drainage Service Area (ARDSA). Specific improvements will be identified and prioritized by the Traffic Engineering Department in conjunction with public involvement.

#### Comments

Design and construction funding is proposed annually. Several phases of improvements have been designed and constructed. On many neighborhood and collector roads, vehicles are driven above posted speeds which can create unsafe situations. Traffic calming measures are typically used to slow traffic and reduce the frequency and severity of accidents. The overall traffic calming program is envisioned as a joint funding effort utilizing local road bonds and state grants. The operations and maintenance (O&M) will be used to maintain the improved infrastructure.
