

Clean & Green Safe & Secure

What is Clean & Green?

Clean & Green is a program to bring Volunteers together to do maintenance projects in parks. This program is funded by the Anchorage Park Foundation

Why should I volunteer?

Would you like a cleaner, greener and safer community park for you and your family to enjoy? By investing a little valuable time you can help revitalize your parks. Often by showing that you care about a park, vandalism can be prevented.

Tree Brushing at Meadow Park

Painting at Tikishla Park

Who can do a Clean & Green?

Volunteers are individuals, groups or organizations of all ages who share a common interest in keeping our parks clean and wish to have an opportunity to enjoy the outdoors.

How can I get involved?

Do you have a park in your community that you would like to give a facelift? Contact the volunteer coordinator to help you pick an activity and location that works for you.
