WHEREAS, the purpose and intent of the Assembly in adopting subsection 21.08.050I.2: IMPROVEMENTS, Street Lighting, in Title 21 (new code) was to set a lighting standard for collector level roads located within rural areas of the Municipality consistent with regional plans governing these areas, including the Hillside District Plan; and

WHEREAS, it is the intent of the Anchorage Assembly that case-by-case consideration of street lighting in rural zones defined as class B improvement areas may include the addition of roadway lighting to sufficiently meet Anchorage School District criteria for classification of non-hazardous walking route(s) to school; now therefore,

THE ANCHORAGE ASSEMBLY ORDAINS:

Section 1. Anchorage Municipal Code section 21.08.050 (Title 21 new code) is hereby amended to read as follows (*language indicating no amendment is included for context only and other subsections not affected are not set out*):

21.08.050 IMPROVEMENTS
*** *** ***

I. Street Lighting

1. Street lighting apparatus shall meet municipal standards for materials and design and be provided with underground power. The location of the streetlight poles shall be approved by the traffic engineer and shall comply with standards contained in the Design Criteria Manual.
2. Street lighting constructed for collector streets located in rural zones defined as class B improvement areas in Table 21.08-1 shall be non-continuous and shall provide the collector (low) level lighting specified in Table 5.1 of the Design Criteria Manual at intersections. Lighting may also be considered on a case-by-case basis, when necessitated by specific safety issues, in the following areas: (1) crosswalks in established school zones; (2) public access approaches to schools and emergency services stations; (3) designated at-grade crossings of separated pathways; (4) non-motorized underpass tubes and tunnels; (5) left turn storage bays if using raised or flush medians; and (6) areas where crash rates exceed statewide averages and the night-to-day crash

ratio is 2:1 or greater; (7) areas that may require additional roadway lighting to sufficiently meet Anchorage School District criteria for classification as a non-hazardous walking route to school. For the purpose of this rural lighting standard, a driveway is not an intersection.

MUNICIPALITY OF ANCHORAGE
ASSEMBLY MEMORANDUM
AM -2014

Meeting Date: February 17, 2015

1 **From: ASSEMBLY MEMBER JOHNSTON**

2 **Subject: AO 2015- — AN ORDINANCE OF THE ANCHORAGE MUNICIPAL**
3 **ASSEMBLY AMENDING ANCHORAGE MUNICIPAL CODE SECTION 21.08.050, STREET**
4 **LIGHTING IMPROVEMENTS, FOR COLLECTOR STREETS LOCATED IN CLASS B**
5 **IMPROVEMENT AREAS UNDER TITLE 21 (NEW CODE).**

6
7 To address local Hillside neighborhood concerns and preferences favoring a rural street light
8 standard, the Anchorage Municipal Assembly adopted standards in (new) title 21 to allow for
9 collector (low) level lighting. Subsection 21.08.050I.2, STREET LIGHTING, sets a lighting
10 standard for collector level roads located within rural areas of the Municipality consistent with
11 regional plans governing these areas, including the Hillside District Plan; and provides for a
12 non-continuous street lighting standard with collector (low) level lighting specified in table 5.1
13 of the Design Criteria Manual at these area intersections.

14
15 On October 22, 2013, under AO 2013-89 (S-1), the Assembly further revised the language in
16 AMC subsection 21.08.050I.2 to effectuate the Assembly's intent regarding certain safety
17 issues. The new code was amended to include lighting on a case-by-case basis when
18 necessitated by safety issues that fall within 6 specified areas of concern identified in 2013.

19
20 As part of the Golden View Drive Upgrade Project from Rabbit Creek Road to Ransom Ridge
21 Drive, Hillside residents requested the Municipality to construct a non-hazardous walking
22 route to school. The six areas identified in AMC 21.08.050I.2 for enhanced street lighting do
23 not include the addition of roadway lighting for a non-hazardous school student walking route
24 to Anchorage schools. In order to address these safety issues, and allow for a non-
25 hazardous walking route to school under Anchorage School District designation criteria, AMC
26 subsection 21.08.050I.2 (new title 21) requires further revision.

27
28 For project applications filed under "old" title 21, Municipal Traffic Engineer Stephanie
29 Mormilo, P.E., Public Works Department, has confirmed no change is required to the street
30 lighting provisions in "old" title 21.

31
32 Public hearing is requested for March 24, 2015 to accommodate review and comment by the
33 Planning & Zoning Commission on March 2, 2015.

34
35 Respectfully submitted:

36
37 Jennifer Johnston
38 Assembly Member, District 6 (South Addition)
