Part II

The following statement of intent is added to the Commission commentary on the Anchorage Municipal Charter:

Section 14.04

The retail sale of alcoholic beverages within the Municipality, while beneficial to certain elements of private industry, requires the substantial expenditure of public funds for public health, education, and safety.

Accordingly, the intent of this section is to levy a special alcohol sales tax on alcoholic beverages and, to the maximum extent allowed by law to, use the revenues derived to expand health, education, recreation and public safety within the Municipality of Anchorage.

It is also the intent of this section to add to, rather than to replace, existing tax revenues through the levy of the special tax under this section. (petition)
