**SITE DESCRIPTION AND PROPOSAL:**

The Airport occupies an area of 2,233 acres, and includes runways and air terminals and other assorted accessory uses and structures. The petitioner has a concession agreement from the Airport to lease 1,675 square feet of floor space in the South Terminal, Concourse "B", Lease Space SB 2750, for a restaurant/bar to serve patrons using airport facilities.

The Humpy's Great Alaskan Alehouse restaurant has 70 non-fixed seats and 10 fixed seats. Daily operating hours are from 11:00 AM to 2:00 AM, 365 days a year. The restaurant menu will offer appetizers, soups and salads, sandwiches and burgers, and specialty entrées, desserts and breakfast, and will offer Alaskan beer, wines and cocktails.

Sales to persons who are inebriated or underage are prohibited. It is also important to note that the location of this facility is past the Airport Security screening, and the building has the constant presence of a dedicated police force.

**PUBLIC COMMENTS:**

Fifty-one (51) public hearing notices (PHNs) were mailed. At the time this report was written no PHNs were returned: no written comment has been received from any of the Community Council's.

**FINDINGS**

**A. *Furtheres the goals and policies of the Comprehensive Development Plan and conforms to the Comprehensive Development Plan in the manner required by Chapter 21.05.***

This site is identified on the *Anchorage 2020 Plan* Land Use Policy Map (p. 50) as part of the West Anchorage Planning Area, which sets the direction for the preferred form of long-term growth and development in the Anchorage Bowl. This concept will be implemented through the development of the Plan as noted in Land Use Policy #28.

Several goals of the *Anchorage 2020 Plan* address related issues such as recreational and economic opportunities. Ted Stevens Anchorage International Airport has long been recognized as the primary air transportation gateway to the Municipality and Alaska, and one of the most important economic generators for Southcentral Alaska. The airport is state-owned and operated as it is a major employer and land use with potential for expansion.

**B. *Conforms to the standards for that use in this title and regulations promulgated under this title.***

*This standard is met.*

The Transition District zoning regulations allow alcoholic beverage sales through the conditional use permit process: AMC 21.40.240 D.5. *Uses involving alcoholic beverage sales and dispensing.*

**C. *Will be compatible with existing and planned land uses in the surrounding neighborhood and with the intent of its use district.***

*This standard is met.*

The Transition District is intended for areas undergoing change. It is intended that interim development shall proceed in accordance with the applicable comprehensive development plan for the property being developed. As development patterns start to emerge within these areas and the sophistication

of their protection becomes more critical to the general public interest, it is anticipated that such lands within the T districts will be proposed for more restrictive zoning classifications. All airports within the Anchorage Bowl are zoned T District. The subject airport has always provided food and alcoholic beverages for its travelers. The restaurant is compatible with the T zone and existing uses in the Airport.

AMC 21.50.160.B asks that a list of all alcohol licenses located within a minimum of 1,000 feet of the proposed conditional use be provided. There are a total of four beverage dispensary tourism licenses owned and operated by Host International, Inc. in the domestic airport area: Upper One (Beverage Dispensary) License #1187; Chili's Too, License #4403; Legends Lounge License #4404 (formerly called Cloud Hoppers and Frontier Lounge); and the Alaska Airlines Board Room, License #4423.

This request will still make a total of five (5) Beverage Dispensary licenses within 1,000 feet.

Alaska Statute 04.11.410, Restriction of location near churches and schools, restricts beverage dispensary and package store licenses from being located in a building the public entrance of which is within 200-feet of the public entrance of a church building, or from being located within 200-feet of school grounds. There are no church buildings or school grounds within 200 feet of the Airport.

***D. Will not have a permanent negative impact on the items listed below substantially greater than that anticipated from permitted development:***

**1. Pedestrian and vehicular traffic circulation and safety.**

*This standard is met.*

The Airport provides all required parking on site on airport grounds, and takes into consideration all food and beverage concessioners. The amount of required parking, pedestrian and vehicular traffic circulation and safety was reviewed and determined as part of the on-going building permit additions and recent airport expansion. The Traffic Department had no objection and no comment on this relocation.

**2. The demand for and availability of public services and facilities.**

*This standard is met.*

The restaurant serving alcohol at this location will not impact public services. Electrical, water and sewer, natural gas are available on site. Road infrastructure and public transit is already in place. The petition site is within ARDSA, Police and Fire service areas.

**3. Noise, air, water, or other forms of environmental pollution.**

*This standard is met.*

As a land use, a Beverage Dispensary conditional use and license will not cause or contribute to any environmental pollution. The public parking lots are paved, which control air pollution.

**4. The maintenance of compatible and efficient development patterns and land use intensities.**

*This standard is met.*

The zoning, land use and the general area land use will not change as a result of this conditional use permit for a Beverage Dispensary-Tourism license.

**Standards Chapter 10.50 Alcoholic Beverages**

**In the exercise of its powers and under AS 04.11.480 and 15 AAC 104.145 to protest issue, renewal and transfer or alcoholic beverage licenses within the Municipality of Anchorage, the Assembly shall consider whether the proposed license meets each and every factor and standard set forth below**

**A. Concentration and land use. Whether transfer of location or issue of the requested license will negatively impact the community through an increase in the concentration of uses involving the sale or service of alcoholic beverages within the area affected and will conform to the separate standards of AMC 21.50.020.**

This standard does not apply to tourism licenses.

Alaska Statutes for Title 4. Alcoholic Beverage Control includes an exemption clause from the regular license-to-population ratio limitations for tourism licenses.

There are no schools or churches within 1,000-feet of the petition site. There are four (4) other beverage dispensary licenses at the airport. The petitioner is also applying for a beverage dispensary tourism license #4988 for Norton Sound Seafood House at the South Terminal (Case 2010-072). Approving both beverage dispensary-tourism licenses will bring the total number at 5000 W International Airport Road to six (6).

Alaska Airline Boardroom	5000 W International Airport Road	#4423	Beverage Dispensary Tourism
Upper One	5000 W International Airport Road LS SA 2350	#1187	Beverage Dispensary Tourism
Chili's Too	5000 W International Airport Road LS C2208	#4403	Beverage Dispensary Tourism
Legends Lounge	5000 W International Airport Road LS C2786	#4404	Beverage Dispensary Tourism

Until such plan is approved, training by a licensee's employees in the T.A.M. shall constitute compliance with this ordinance.**

This standard is met.

The applicant states that all employees will be involved in the dispensing of alcoholic beverages and will be trained in accordance with the T.A.M. training and hold the appropriate certificates.

- C. Operations procedures. If application is made for issue, renewal or transfer of a license, whether the applicant can demonstrate prospective or continued compliance with operations procedures for licensed premises set forth in Section 10.50.035 of this code.**

This standard is not applicable.

- D. Public safety. When application is made for the renewal or transfer of location or transfer of ownership of a beverage dispensary license restaurant or eating place license, or package store license, the Assembly shall consider whether the operator can demonstrate the ability to maintain order and prevent unlawful conduct in a licensed premise. In determining the operator's demonstrated ability to maintain order and prevent unlawful conduct, the Assembly may consider police reports, testimony presented before the Assembly, written comments submitted prior to or during the public hearing, or other evidence deemed to be reliable and relevant to the purpose of this subsection. For purposes of this section and Section 10.50.035 "licensed premises" shall include any adjacent area under the control or management of the licensee.**

This standard appears to be met.

According to the application the petitioner the interior of the licensed premises will be well lighted, as is the lobby and parking lot. No additional safety procedures are mentioned in the application. No comments were received from the Anchorage Police Department at the time this report was prepared.

- E. Payment of taxes and debts. When application is made for renewal of a license the assembly shall consider, pursuant to AS 4.11.330, whether the applicant is delinquent in payment of taxes owed to the Municipality. When application is made for transfer of ownership of a license the Assembly shall consider, pursuant to AS 4.11.360, whether the municipality has received either payment or adequate security, for the payment of any debts or taxes, including any estimated taxes for the current year, arising from the conduct of the licensed business. Adequate security for the payment of debts and taxes may be in the form of: 1) escrowed funds sufficient to pay the debts and taxes claimed and any escrow fees; 2) actual payment of debts and taxes claimed; or, 3) a guarantee agreement in accordance AMC 10.50.030. Any guarantee agreement shall be in writing, signed by the transferor, transferee and Municipality**

This standard is met.

There are no delinquent Personal Property Taxes, Real Property Taxes or Downtown Improvement Special Tax Assessments owing at this time according to the Treasury Division.

- F. Public health. If application is made for the renewal or transfer of location or transfer of ownership of a license, the Assembly shall consider whether the operator has engaged in a pattern of practices injurious to public health or safety such as providing alcohol to minors or intoxicated persons, committing serious violations of State law relevant to public health or safety, or other actions within the knowledge and control of the operator which place the public health or safety at risk. In determining if a pattern of practices injurious to public health or safety exists, the Assembly may consider criminal convictions, credible proof of illegal activity even if not prosecuted, police reports, testimony presented before the Assembly, written comments submitted prior to or during the public hearing, or other evidence deemed to be reliable and relevant to the purpose of this subsection.**

At the time this report was prepared there were no comments received from the Department of Health and Human Services.

- G. Municipality of Anchorage Alcoholic Beverage Licensee Compliance Form. In order to determine whether applicants seeking issue, renewal or transfer of alcoholic beverage licenses have complied with the provisions of this chapter, applicants shall, at the request of the Assembly, submit to the municipal clerk such information as is required on a municipal form prepared by the municipal clerk known as the Municipality of Anchorage Alcoholic Beverage Licensee Compliance Form. Upon request, operators shall also provide the municipal clerk with certificates from all current employees demonstrating that those employees have successfully completed a "Liquor Service Awareness Training Program" such as the program for techniques in alcohol management (T.A.M.) as approved by the State of Alaska Alcoholic Beverage Control Board.**

This form was not requested of this applicant.

The Assembly may only approve the conditional use if it finds that all of the following 4 standards are satisfied. Each standard must have a response in as much detail as it takes to explain how your project satisfies the standard. The burden of proof rests with you. Use additional paper if needed.

Explain how the proposed conditional use furthers the goals and policies of the comprehensive development plan and conforms to the comprehensive development plan in the manner required by AMC 21.05.

Although the comprehensive development plan does not address the sale of alcoholic beverages, a beverage dispensary tourism license is an appropriate ancillary use to the predominant purpose of this property - tourism and providing service to the traveling public.

Explain how the proposed conditional use conforms to the standards for that use in this title and regulations promulgated under this title.

The beverage dispensary license held by Host International at the Anchorage Airport pre-dates the conditional use permit regulation. However, the renewal of these licenses have been approved on all occasions without protest or restrictions.

Explain how the proposed conditional use will be compatible with existing and planned land uses in the surrounding neighborhood and with the intent of its use district.

This is a tenant improvement in the expansion of the Airport South Terminal. This use has been and will continue to be compatible with existing and planned land uses in the surrounding neighborhood.

Explain how the proposed conditional use will not have a permanent negative impact on the items listed below substantially greater than that anticipated from permitted development:

1. Pedestrian and vehicular traffic circulation and safety.

Establishments are in the Airport behind security. Patrons are Not proceeding to vehicular traffic. Host has strict policies regarding service of adult beverages to prevent overservice. Hospitality license

## For Immediate Release

**HMSHost Renews Food & Beverage Contract at Anchorage International Airport**  
*New restaurant created in partnership with Norton Sound Economic Development Corporation*

**BETHESDA, MD** – HMSHost Corporation, a world leader in travel dining and shopping, today announced a ten-year extension of its food and beverage concessions contract with Anchorage International Airport (ANC). HMSHost will continue to offer an exceptional lineup of local and national brands to ANC travelers, highlighted by the new *Norton Sound Seafood House*.

"HMSHost continues to deliver exceptional, well-designed dining options that enhance our food and beverage concessions program. This agreement will bring new venues to give visitors to Alaska the local flavor they eagerly anticipate and enjoy," said Debbie Herrick, Properties Manager, Anchorage International Airport.

The *Norton Sound Seafood House* is a showcase of the fishery resources and the small-boat fishermen of remote Northwest Alaska communities. HMSHost is pleased to work in partnership with the Norton Sound Economic Development Corporation (NSEDCC), a local, non-profit corporation, to develop this exciting, locally-themed seafood restaurant for ANC. NSEDCC's goals are to support local fisheries and provide economic development through education, employment, training and financial assistance to its 15 member communities.

— more —

"NSEDC is very pleased to be a partner in this project for several reasons," said Janis Ivanoff, NSEDC's Chief Executive Officer. "The prime location will certainly result in increased exposure to our region's high-quality seafood; this will let consumers passing through the airport experience the fishery resources that our region has depended on for thousands of years, improve the markets for our local small-boat fishermen, and ultimately to bring the fishermen's and consumers' best interests together in this niche operation in Alaska's busiest airport."

Locally-caught seafood will be the star of the **Norton Sound Seafood House** menu with items created by well-known television celebrity **Chef Al Levinsohn**. Selections include Chef Al's Alaskan Crab Po Boy, Original Ale battered Halibut Po Boy, Original Ale battered Halibut and King Crab Cake Dinner. Scheduled to open in August, the restaurant will be located post-security on Concourse C, and will provide travelers a cozy, modern atmosphere with a full bar featuring locally-brewed beer, fine wines, and cocktails.

**Humpy's Great Alaskan Alehouse**, a popular Anchorage pub that features a range of local draft beers and is famous for Alaskan Fish & Chips, is another new concept opening on Concourse B in July. HMSHost's current ANC food and beverage options include **Starbucks Coffee, Chili's Too, Quiznos, Legends, Café Del Mundo** and **Upper One Lounge**.

"We believe this new agreement expresses the airport's confidence that we are making the traveler's day better at Anchorage International Airport. We are also very pleased to support the local community in partnership with the Norton Sound Economic Development Corporation and are working with them to create a unique restaurant that truly gives ANC's travelers a sense of place," said Stephen Douglas, Vice President, Business Development, HMSHost.
