
Development Services Department

Anchorage: Performance. Value. Results.

Purpose

Development Services works to facilitate development in accordance with municipal codes, municipal design criteria, and municipal construction standards. We protect public health through regulation of on-site water and wastewater systems. We respond to our customers seeking building, right-of-way, and land use permits or inspections or code enforcement information with open, friendly, cost efficient and effective service.

Core Services

- Enable property development through building and land use permitting.
- Ensure new construction meets municipal standards for protecting safety, public health, and environmental quality.
- Enforce municipal codes to protect public assets such as rights-of-way and to promote clean and attractive neighborhoods.

Development Services Department

Building Safety Division

Anchorage: Performance. Value. Results.

Purpose

Building Safety Division processes applications for building, land use, and private development permits; performs inspections (structural, mechanical, and plumbing) to assure safe development; and protects public health and environmental quality through regulation of on-site water and wastewater systems.

Direct Services

- Process permit applications, provide cashier services, and issue permits.
- Inspect construction and remodeling for compliance with plans and adopted building codes.
- Conduct Code Abatement services such as code compliance inspections, water/fire damage, dangerous building reviews, and securing vacant and abandoned property.

Accomplishment Goals

- Ensure development-related infrastructure is designed and constructed according to municipal design criteria, standards, codes, and practices; and
- Provide prompt and efficient permit processing, timely plan reviews, and same-day as requested construction inspection services.
- Respond to service requests for such activities as illegal fill/excavation, business license inspection, and notice of permit requirement.

Performance Measures

Progress in achieving goals will be measured by:

Measure #1: Average number of minutes for first customer contact (Permit Management Division)

Average Number of Minutes for 1 st Customer Contact			
Q1 2024	Q2 2024	Q3 2024	Q4 2024
12 Minutes	30 Minutes	35 Minutes	20 Minutes
3,092 Customers (in-person) 433 (Permit Inbox)	3,939 Customers (in-person) 1,335 (Permit Inbox)	4,169 Customers (in-person) 1,406 (Permit Inbox)	2731 Customers (in-person) 1,175 (Permit Box)

Development Services Department

Plan Review Division

Anchorage: Performance. Value. Results.

Purpose

The purpose of this Division is to review projects for adherence to currently adopted building codes and provide interpretations on building code language and intent; to provide a safe building environment held to a modern standard. We meet this purpose by providing engineering review of permit applications for residential and commercial construction projects to include plans and calculations as required; coordination with the Building Inspection Division for issues during construction and code violations.

Direct Services

- Attend preliminary permit submittal meetings to discuss potential conflicts that could delay approvals when submitting.
- Review permit applications for commercial and residential construction projects within the Building Safety Service Area (BSSA) or as requested outside the BSSA but still within the Municipality of Anchorage.
 - Provide approval or comments for corrections to applicant.
- Provide support to the Building Inspection Division during construction for permitted work that does not match permit documents.
- Review Alternate Means and Methods (AMM) requests for adherence to the intent of the code; to verify AMM provides equivalent health and safety standards, for final approval by the Building Official.
- Conduct site visits with Building Inspection Division following service request for non-code-compliant items; assist in developing path forward to compliance with building owner.
- Provide customer service, education and code enforcement including interpretation of Anchorage Municipal Code.
- Respond to public comments, issues, or questions with respect to the Municipality of Anchorage's currently adopted codes and policies.
- Develop and share handouts and policies for clarity on the currently adopted building codes, to be reviewed and approved by the Building Official.
- Review and approve third party reviewers for commercial and residential engineering and architectural reviews; audit minimum 10% of permits submitted by third party reviewers.

Accomplishment Goals

- Complete first cycle permit reviews within currently established time frames or sooner.
 - Complete expedited reviews within half the established time frame of regular permits
- To provide enhanced review for in person applicants to streamline reviews where applicable.
- To provide clear advice and interpretations on building codes to the public.

Performance Measures

Progress in achieving goals shall be measured by:

Measure #4: Percent of first-time residential plan reviews completed within 4 business days (Plan Review Division)

On-Site Water and Wastewater Division Development Services Department

Anchorage: Performance. Value. Results.

Purpose

The purpose of this Section is to establish minimum requirements to safeguard public health by protecting aquifers from contamination and environmental degradation. We meet this purpose by providing engineering reviews and analysis as required for approval or disapproval of on-site water & wastewater disposal system permits, as-built documentation, issuance of Certificates of Onsite Systems Approval (COSA), reviewing waiver requests, enforcement and reviewing innovative on-site wastewater disposal systems and advanced technologies.

Direct Services

- Review applications for the installation of on-site well and wastewater disposal systems to assure compliance with all Municipal codes and regulations.
- Review and approve (or disapprove) requests for Certificates of Onsite Systems Approval submitted by private sector engineers.
- Review and evaluate requests for waivers to established setback distance requirements between on-site septic systems and surface water, potable water wells and property lines.
- Conduct field inspections, consult with private citizens, professional engineers and other government agencies.
- Prepare and present seminars to professional engineers, well drillers, excavators, real estate agents and others.
- Provide customer service, education and code enforcement including interpretation of Anchorage Municipal Code.
- Respond to citizen complaints regarding on-site wells and wastewater disposal systems. Ensure that code compliance is accomplished and that offenders are dealt with firmly and fairly.

Accomplishment Goals

- Approve COSA applications for existing wastewater system with 3 business days.
- Private engineer's inspection reports reviewed and approved with 3 business days.
- On-site and septic permit applications reviewed within 3 business days.

Performance Measures

Progress in achieving goals shall be measured by:

Private Development Division Development Services Department

Anchorage: Performance. Value. Results.

Purpose

- Ensure that all new subdivisions and right-of-way improvements adhere to the established standards set forth by municipal codes, as well as platting and zoning regulations.
- Promote high-quality development by the private sector through reviewing building permits, subdivision plans, and Stormwater Pollution Prevention Plans.
- Review Flood Hazard Permits for construction and development within the floodplain to minimize damage to structures and property during flood events.

Direct Services

- Review private development construction plans and plats to promote conformance with municipal codes and design standards.
- Review and approve building permit plans to promote conformance with municipal codes and design standards.
- Review and approve Stormwater Pollution Prevention Plans for construction projects to ensure contractors effectively manage materials, equipment, and runoff on construction sites.
- Prepare subdivision agreements in accordance with Platting Board's summary of action.
- Conduct thorough surveillance, pre-final, and final inspections on new subdivision construction to ensure adherence to approved construction plans and regulatory requirements.
- Conduct surveillance inspections on new construction projects to verify compliance with approved erosion and sediment control plan.
- Respond to public inquiries concerning activity within the floodplain.

Accomplishment Goals

- To ensure 100% compliance of private development construction plans and plats with municipal codes and design standards through thorough and accurate reviews, thereby facilitating safe and sustainable development within the community.
- Efficiently review and approve building permit plans with a 100% compliance rate to municipal codes and design standards, facilitating safe and high-quality construction projects that enhance the community's infrastructure.
- To meticulously review and approve Stormwater Pollution Prevention Plans (SWPPP) for all construction projects, ensuring that contractors effectively manage materials, equipment, and runoff on construction sites, thereby minimizing environmental impact and promoting sustainable development practices.
- To draft subdivision agreements aligned with the Platting Board's directives, facilitating transparent and legally compliant land development processes that promote community safety, sustainability, and development.
- To consistently execute comprehensive surveillance, pre-final, and final inspections on new subdivision construction projects, achieving a 100% compliance rate with approved construction plans and regulatory standards. Through close oversight, contribute to the successful completion of safe, high-quality development that enhance community infrastructure and uphold regulatory integrity.
- To conduct surveillance inspections on new construction projects, ensuring adherence to approved erosion and sediment control plans. Achieve full compliance with regulatory

standards, thereby promoting environmental protection and sustainable development practices within the community.

- Provide timely and accurate responses to all public inquiries regarding activity within the floodplain, ensuring clarity and understanding of regulations and potential risks. Enhance public awareness and confidence by delivering comprehensive information and guidance, ultimately fostering community safety in flood-prone areas.

Performance Measures

Progress in achieving goals shall be measured by:

Measure #8: Percent of all required MOA development plan review responses provided to a customer within 15 business days of submittal (Private Development Division)

Land Use Permitting & Enforcement Division Development Services Department

Anchorage: Performance. Value. Results.

Purpose

Protect the public health, safety, welfare, and economic vitality by:

Protecting the traveling public and improving the quality, useful life, and safety of public infrastructure within the rights-of-way of the Municipality of Anchorage.

Improving quality of life and property values through effective application and enforcement of Anchorage Municipal Code Title 15 (Environmental Protection), 21 (Land Use Planning), 24 (Streets and Rights of Way), and six other codes.

Providing technical expertise and assistance to the public and development community through review of development proposals, land use and building permits and facility licenses; and

Maintaining unique addressing and street names to ensure 911 public safety and conformance with Anchorage's land use regulations.

Direct Services

Right of Way Permitting & Enforcement

- Interpret, apply, and enforce Anchorage Municipal Code Title 24, Streets & Rights of Way and eight other municipal codes.
- Investigate and resolve complaints of unsafe or illegal usage of rights-of-way.
- Inspect construction projects within municipal rights-of-way.
- Review construction plans and issue right-of-way permits on a timely basis; and
- Provide critical support for community events such as Fur Rendezvous and Iditarod.

Land Use Enforcement

Interpret, apply, and enforce Anchorage Municipal Code Title 15 (Environmental Protection), Title 21 (Land Use Planning), and seven other municipal codes; and

- Review and inspect marijuana businesses, day care centers, animal facilities, & businesses selling alcoholic beverages for compliance with municipal land use regulations when those businesses seek new licenses or renewals.

Addressing

- Maintain the Master Street Address Guide (MSAG);
- Provide critical support to maintain the 911 address data layer to support the Anchorage Police and Fire Departments; and
- Assign addresses to new construction and work to eliminate duplicate street names.

Accomplishment Goals

- Continue to make progress eliminating duplicate street names to ensure the uniqueness of each address, thereby improving E911 response times.
- Protect the traveling public and the municipal rights-of-way, the largest single asset of the Municipality of Anchorage at +\$10 billion.
- Respond to land use code complaints within established timeframes.
- Complete final zoning inspections same day as requested; and
- Provide timely and accurate services for:
 - Business facility reviews and inspections
 - Assignment of new addresses, and

- Maintenance of GIS map data layers for roads and addresses

Performance Measures

Progress in achieving goals will be measured by:

Performance Measures Definitions and Terminology

Example: Measure #11: Percent of land use enforcement *complaints* with investigation initiated within one *working day* of receipt. (*Land Use Enforcement*)

Complaint(s) is defined as a request for assistance or an allegation of a use or activity not permitted by applicable Anchorage Municipal Code (AMC).

Investigated or Investigation is defined as the formal examination or action by the assigned enforcement agency to resolve the request for assistance and/or determine whether a violation of municipal code has occurred.

Examples include but are not limited to: complaint review, contact of complainant or alleged violator, issuance of relevant correspondence, site visit and the like, and completion of the supporting data entry and documentation of evidence and results.

Working day is defined as a scheduled shift a code enforcement officer is working who is responsible for the type of complaint and area the complaint is filed in.

“Working day” **does not** include scheduled days off such as weekends or holidays. However, “working day” **includes** scheduled vacation days as management has the responsibility to provide area coverage during those times.

Measure #19: Inspections of permitted construction completed to ensure installation compliance with MOA standards and specifications (Right of Way Division)

Right of Way Construction Inspections Completed			
Month/Year	# of ROW Officers	Accomplished	YTD
Jan 24	5	566	566
Feb 24	4	11	577
Mar 24	4.75	38	615

Measure #22: Percent of final zoning inspections completed same day as requested (Land Use Enforcement Division).

Measure WC: Managing Workers' Compensation Claims

Reducing job-related injuries is a priority for the Administration by ensuring safe work conditions and safe practices. By instilling safe work practices, we ensure not only the safety of our employees but reduce the potential for injuries and property damage to the public. The Municipality is self-insured and every injury poses a financial burden on the public and the injured worker's family. It just makes good sense to WORK SAFE.

Results are tracked by monitoring monthly reports issued by the Risk Management Division.
