## RESUME

### JOHN A. BUZDOR, PE

1150 South Colony Way, Suite 3, PMB 335  
Palmer, AK 99645  
PH: 907-746-1593

### EDUCATION

BS            University of Alaska - Fairbanks            1984            Civil Engineering

### PROFESSIONAL REGISTRATIONS AND ACTIVITIES

Registered Professional Civil Engineer, Alaska, CE 7732  
Certified Special Inspector, Reinforced Concrete  
Certified Special Inspector, Structural Masonry  
Certified Special Inspector, Pre-stressed Concrete  
Certified Special Inspector, Spray-Applied Fireproofing  
ACI Certified Concrete Field, Laboratory and Aggregate Testing Technician  
U.S. Army Corps of Engineers Construction Quality Management Certificate  
MOA Approved Special Inspector, License No. SI-060

### EMPLOYMENT HISTORY

1999 to present    Owner  
Buzdor Engineering, Palmer, Alaska

1992 to 1998:      Senior Project Engineer  
EBA Engineering Inc., Anchorage, Alaska

1991 to 1992      Project Administrator (QA/QC)  
Ken Brady Construction Company, Anchorage, Alaska

1990 to 1991      Assistant Construction Manager (QA/QC)  
Westward Seafoods, Dutch Harbor, AK

1985 to 1990      Division Manager/Staff Engineer  
PSI/Pittsburgh Testing Laboratory, Anchorage, Alaska

1984                Construction Materials Technican  
R&M Consultants, Anchorage, Alaska

1983                Construction Inspector  
City of Craig, Alaska

---

**CONSTRUCTION AND ENGINEERING EXPERIENCE**

- Quality Assurance for soils, concrete and asphalt and Civil Quality Control for the Ft. Richardson FY05 Personnel Housing project (2005-ongoing).
- Quality Assurance for soils, concrete and asphalt and Special Inspector for reinforced concrete, masonry and fireproofing for the Ft. Richardson Whole Barracks Renewal FY04 project (2005-2006).
- Quality Assurance for soils, concrete and asphalt for the C-17 Flight Simulator Building on Elmendorf AFB (2005-2006).
- Quality Assurance for soils, concrete and asphalt and Special Inspector for reinforced concrete and fireproofing for the Alaska Medical Office building (2005-2006).
- Quality Assurance for concrete and soils and Special Inspector on the McKay Building Renovation (2000, continued 2005 and ongoing).
- Quality Assurance for soils, concrete and asphalt for the new Wasilla Elementary School (2005).
- Quality Assurance for soils and concrete and Special Inspection for soils, reinforced concrete, post-tensioned concrete and spray-applied fireproofing for the Bristol Bay Building (2004-2005).
- Quality Assurance for soils, concrete and asphalt and Special Inspector for reinforced concrete for the new Lowes store in Wasilla, AK (2004).
- Quality Assurance for soils, concrete and asphalt and Special Inspector for reinforced concrete, masonry and fireproofing for the Ft. Richardson Whole Barracks Renewal FY03 project (2003-ongoing).
- Quality Assurance for soils, concrete and asphalt and Special Inspector for reinforced concrete and fireproofing for the UAA Library Expansion (2002-2003).
- Quality Assurance for soils, concrete and asphalt for the new South Anchorage High School (2002-2003).
- Quality Assurance for soils, concrete and asphalt and fireproofing for the Elmendorf FY02 Dormitory project (2002-2003).
- Quality Assurance for soils, concrete, masonry and asphalt and Special Inspector for reinforced concrete and masonry for the new Combat Communications Facility on Elmendorf AFB (2002-2003).
- Quality Assurance for soils, concrete, masonry and asphalt and Special Inspector for reinforced concrete, masonry and fireproofing for the Sherrod Elementary School in Palmer, AK (2002).
- Quality Assurance for soils, concrete and asphalt for the replacement of Dimond High School (2001-2002).

- Quality Assurance for soils, concrete and asphalt and Special Inspector for reinforced concrete and fireproofing for the UAA Parking Garage (2001-2002).
- Contractor Quality Control for concrete paving, soils and aggregates for Ted Stevens AIA Remain Overnight (RON) Hardstand project (2000-2001).
- Quality Assurance for soils, concrete, masonry, and asphalt and Special Inspection of concrete, masonry and fireproofing for the Anchorage Christian School Expansion (2001).
- Quality Assurance for concrete and soils and Special Inspector for reinforced concrete and masonry on Kulis Air National Guard Base for the construction of a new Fire Rescue Station and Vehicle Maintenance Facility (1999-2000).
- Quality Assurance for soils, concrete and asphalt and Special Inspector for reinforced and post-tensioned concrete for the Providence (Hospital) Parking Structure (1998-99)
- Quality Assurance for concrete and soils and Special Inspector for reinforced concrete, structural steel, spray applied fireproofing for the downtown Anchorage Marriott (1998-2000).

# TROXLER ELECTRONIC LABORATORIES, INC.

HEREBY CERTIFIES THAT

JOHN A. BUZDOR  
of  
EBA ENGINEERING, INC.

HAS SUCCESSFULLY COMPLETED THE TROXLER ELECTRONIC LABORATORIES, INC. TRAINING COURSE FOR THE USE OF NUCLEAR TESTING EQUIPMENT.

SUBJECTS INCLUDED IN THIS COURSE WERE AS FOLLOWS:

Radiological Safety

1. Principles and practices of radiation protection.
2. Leak testing procedures.
3. Mathematics and calculations basis to the use and measurement of radioactivity.
4. Biological effects of radiation.
5. Radioactivity measurement standardization and monitoring techniques and instruments.
6. Accident and incident procedures.
7. Procedures for nuclear gauge storage and transportation.
8. General safety precautions.

Gauge Operation

1. Instrument theory
2. Operating procedures
3. Maintenance
4. Field application
5. Gauge calibration

To: Thornton, Richard W.  
Subject: John Buzdor

When: Tuesday, June 03, 2008 11:00 AM-12:00 PM (GMT-09:00) Alaska.  
Where: Building Safety Conference Room

\*~\*~\*~\*~\*~\*~\*~\*~\*~\*

John Buzdor, 746-1593  
5/28 vg

Meeting notes:

Meeting was held on time; Ron Thompson, Jim Stubbs, Rick Thornton and John Buzdor present.

Ron explained that inspections must be performed diligently, as required by adopted codes. 2 warning letters and 1 previous meeting here at building safety was sufficient notice that quality of inspection was not acceptable and that another incident resulting in a project work stoppage would be forwarded to the Building Official to consider canceling approval as special inspector.

John Buzdor agreed to follow requirements. Commented on the more restrictive inspection process, noted his years of experience and that he is a PE.

Ron Thompson stressed that we depended on their specialized training and co-operation. Ron OK'd special inspection approval if Mr. Buzdor's application met the requirements.

John Buzdor provided completed renewal application and copies of current certifications. These were received by Rick Thornton for processing.

**Verify Special Inspector Licenses**

Special inspectors are required to obtain approval from Building Safety for each category of inspection they wish to perform before being listed as a designated special inspector for a specific project.

The documentation for approval includes a wallet card listing the categories the special inspector has been approved to inspect. Special inspectors must have the card in their possession while performing special inspections and be able to produce the card upon request of building official's representative or designated design professional.

Further information concerning inspector qualifications for approval or information in general about the special inspection program is available at Development Services or online at Special Inspector Program.
