**DATE:** April 23, 2020

**TO:** Building Board of Regulation Examiners and Appeals  
Appellant – Tyson Chang/SMJ General Construction

**FROM:** Robert Doehl  
Director, Development Services & Building Official

**SUBJECT:** BCA-03-2020 Appeal of the Building Official's decision on Notices of Order and Notices of Violation for License

After hearing the presentation of staff and the appellant, the board granted the appeal on the basis the appellant did provide enough evidence to demonstrate there was a clerical error made when permit C19-1407 was submitted. The permit C19-1407 should have been submitted under SM Construction and not SMJ General Construction. The Panel requested SM Construction and the Municipality work together to close out the permit and get the Certificate of Occupancy issued.
