**PUBLIC SECTOR ECONOMIC EFFECTS:**

There will be a decrease in Building Safety Service Area revenue effective upon passage. The decreases are to be absorbed in efficiencies gained by the 2021 implementation of computer program enhancements. The intangible benefit of the reduction of associated tasks within the scope of the code revisions will result in an increase in staff time to perform other functions necessary to the safety and efficiency of Development Services permitting functions.

**PRIVATE SECTOR ECONOMIC EFFECTS:**

The private sector effects are anticipated to result in less licensing and permitting fees, as well as streamlining private sector economic development.
