Organics Disposal

Central Wood Lot

The Central Wood Lot's purpose is for Anchorage Resident wildfire mitigation disposal. Materials accepted at the Central Wood Lot:

- Brush & branches
- Cut trees must be less than 6ft long
- Debris from residential properties only
- "Clean" tree stumps, they cannot have any rocks, dirt, landscaping debris attached

The Central Wood Lot materials will be shredded, which is why the following materials cannot be accepted and will result in load rejection and routed to the Central Transfer Station as trash:

- Root clusters
- Grass or loose leaves, please drop at Organics station on campus
- Dirt or rocks
- Bagged materials (no bags please)
- Garbage or metal
- Mixed loads (e.g. wood debris mixed with garbage and recycling) Please make a separate trip for garbage and recycling.
- Pallets, Lumber, and Wood Fence posts, or commercial land clearing debris must be disposed at the Anchorage Regional Landfill

When entering the Materials Recovery Facility, please notify scale house staff that you are visiting the Central Wood Lot and follow signs directing you to the specified area. Booth attendants can answer any questions you might have. The Central Wood Lot is monitored throughout the day. Please take commercial loads of wood to the Anchorage Regional Landfill.

Please be safe and aware at all times when accessing the area.

Plastics Disposal

Please sort your own plastics, any #1,#2,#5 only

For the safety of everyone on the road, cover and secure your load.

Scavenging any materials is strictly prohibited.

Rejected Loads

- Any prohibited items
- NO mixed loads of trash and organics/wood
- NO Bagged items
- NO PLASTICS OR OTHER CONTAMINANTS
- Loads not covered and secured, will be charged a fee

Material Recovery Facility: Central Wood Lot, Organics & Plastics Disposal

Thank You

For pitching in to diversion rather than out to the landfill!
