Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With *Government Auditing Standards*

Honorable Mayor and Members of the Assembly Municipality of Anchorage, Alaska

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of the Municipality of Anchorage, Alaska (Anchorage), as of and for the year ended December 31, 2019, and the related notes to the financial statements, which collectively comprise Anchorage's basic financial statements, and have issued our report thereon dated July 27, 2020. Our report included a reference to other auditors who audited the financial statements of the Anchorage Police and Fire Retirement System, as described in our report on Anchorage's financial statements. The financial statements of the Anchorage Police and Fire Retirement System were not audited in accordance with *Government Auditing Standards*, and accordingly, this report does not include reporting on internal control over financial reporting or instances of reportable noncompliance associated with Anchorage Police and Fire Retirement System.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Anchorage's internal control over financial reporting (internal control) to determine the audit procedures are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Anchorage's internal control. Accordingly, we do not express an opinion on the effectiveness of Anchorage's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

BDO USA, LLP, a Delaware limited liability partnership, is the U.S. member of BDO International Limited, a UK company limited by guarantee, and forms part of the international BDO network of independent member firms.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weakness. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Anchorage's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Anchorage's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Independent Auditor's Report on Compliance for Each Major Federal Program; Report on Internal Control Over Compliance; and Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

Honorable Mayor and Members of the Assembly Municipality of Anchorage, Alaska

Report on Compliance for Each Major Federal Program

We have audited the Municipality of Anchorage, Alaska's (Anchorage) compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of Anchorage's major federal programs for the year ended December 31, 2019. Anchorage's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Anchorage's basic financial statements include the operations of its component unit, Anchorage School District, which expended \$88,531,402 in federal awards which is not included in Anchorage's schedule of expenditures of federal awards during the year ended December 31, 2019. Our audit, described below, did not include the operations of the Anchorage School District because it was subjected to a separate audit in accordance with the Uniform Guidance, for the year ended June 30, 2019.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of Anchorage's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Anchorage's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

BDO USA, LLP, a Delaware limited liability partnership, is the U.S. member of BDO International Limited, a UK company limited by guarantee, and forms part of the international BDO network of independent member firms.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Anchorage's compliance.

Opinion on Each Major Federal Program

In our opinion, Anchorage complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended December 31, 2019.

Report on Internal Control Over Compliance

Management of Anchorage is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Anchorage's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Anchorage's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiencies, in internal control over compliance is a deficiency, or a combination of deficiency or compliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance is a internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Municipality of Anchorage, Alaska as of and for the year ended December 31, 2019, and the related notes to the financial statements, which collectively comprise Anchorage's basic financial statements. We issued our report thereon dated July 27, 2020, which contained unmodified opinions on those financial statements. Our report includes a reference to other auditors. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the Uniform Guidance and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

Notes to the Schedule of Expenditures of Federal Awards for the Year Ended December 31, 2019

1. Basis of Presentation

The accompanying schedule of expenditures of federal awards (the "Schedule") includes the federal award activity of the Municipality of Anchorage, Alaska (Anchorage) excluding its component unit, Anchorage School District, under programs of the federal government for the year ended December 31, 2019. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of Anchorage, it is not intended to and does not present the financial position, changes in financial position, or cash flows of Anchorage.

2. Summary of Significant Accounting Policies

Expenditures reported on the Schedule are reported on the modified accrual basis of accounting. Such expenditures are recognized following, as applicable, either the cost principles in OMB Circular A-87, *Cost Principles for State, Local and Indian Tribal Governments*, or the cost principles contained in Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Negative amounts shown on the Schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years.

3. Indirect Cost Rate

Anchorage has elected not to use the 10-percent de minimis indirect cost rate as allowed under the Uniform Guidance.

4. Loan Programs

Anchorage participates in Revolving Loan Funds and Section 108 Loan Guarantee programs sponsored by the Department of Housing and Urban Development - Community Development Block Grants (CDBG) and the HOME Investment Partnerships Program. Under these programs, Anchorage issues loans to program participants which may be forgiven over time, or are repaid into the program for the issuance of new loans. Only current year loan drawdowns (new loans issued) are reported on the federal schedule; there are no contingencies noted. At December 31, 2019, Anchorage had the following loan activities:

Program Title	Federal CFDA Number	Outstanding Receivable from Program Participants	Outstanding Payable To HUD	Current Year Expenditures
HOME Investment Partnerships				
Program Community Development Block	14.239	\$ 1,543,699	\$-	\$ 816,307
Grants/ Entitlement Grants	14.218	1,045,351	-	2,007,846
Total		\$ 2,589,050	\$ -	\$ 2,824,153

Notes to the Schedule of Expenditures of Federal Awards, continued for the Year Ended December 31, 2019

Anchorage participates in Environmental Protection Agency Clean Water and Drinking Water State Revolving Funds Loan Programs administered by the State of Alaska. These loan programs provide low-interest funding for Municipalities to conduct relevant water, wastewater, and other solid waste improvement programs. The loans include both State of Alaska and federal funding. The outstanding payable balance shown here reflects the total loan balance payable. Current year drawdowns reflect the federal portion of the current year draw and is reflected on the schedule of expenditures of federal awards. At December 31, 2019, Anchorage had the following loan activities:

Program Title	Federal CFDA Number	Outstanding Payable	Current Year Federal Drawdowns
Clean Water Loan Program Drinking Water Loan Program	66.458 66.468	\$ 98,635,819 96,049,103	\$ - 3,268,924
Total		\$ 194,684,922	\$ 3,268,924

5. Unearned Revenue by Program

Unearned revenue by federal program at December 31, 2019 are as follows:

Program Title	Federal CFDA Number	Unearned Revenue
Supplemental Nutrition Assistance Program Cluster	10.561	\$ 27,004
Community Development Block Grants/ Entitlement Grants	14.218	333,980
HOME Investment Partnerships Program	14.239	58,419

Independent Auditor's Report on Compliance for Each Major State Program; Report on Internal Control Over Compliance; and Report on Schedule of State Financial Assistance Required by the State of Alaska Audit Guide and Compliance Supplement for State Single Audits

Honorable Mayor and Members of the Assembly Municipality of Anchorage, Alaska

Report on Compliance for Each Major State Program

We have audited the Municipality of Anchorage, Alaska's (Anchorage) compliance with the types of compliance requirements described in the *State of Alaska Audit Guide and Compliance Supplement for State Single Audits* that could have a direct and material effect on each of Anchorage's major state programs for the year ended December 31, 2019. Anchorage's major state programs are identified in the accompanying Schedule of State Financial Assistance.

Anchorage's basic financial statements include the operations of its component unit, Anchorage School District, which expended \$450,227,119 in state awards which is not included in the Anchorage's Schedule of State Financial Assistance during the year ended December 31, 2019. Our audit, described below, did not include the operations of the Anchorage School District because it was subjected to a separate audit in accordance with the *State of Alaska Audit Guide and Compliance Supplement for State Single Audits*, for the year ended June 30, 2019.

Management's Responsibility

Management is responsible for compliance with state statutes, regulations, and the terms and conditions of its state awards applicable to its state programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of Anchorage's major state programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *State of Alaska Audit Guide and Compliance Supplement for State Single Audits*. Those standards and the *State of Alaska Audit Guide and Compliance Supplement for State Single Audits* require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major state program occurred. An audit includes examining, on a test basis, evidence about Anchorage's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

BDO USA, LLP, a Delaware limited liability partnership, is the U.S. member of BDO International Limited, a UK company limited by guarantee, and forms part of the international BDO network of independent member firms.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major state program. However, our audit does not provide a legal determination of Anchorage's compliance

Opinion on Each Major State Program

In our opinion, Anchorage complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major state programs for the year ended December 31, 2019.

Report on Internal Control Over Compliance

Management of Anchorage is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Anchorage's internal control over compliance with the types of requirements that could have a direct and material effect on each major state program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major state program and to test and report on internal control over compliance in accordance with the *State of Alaska Audit Guide and Compliance Supplement for State Single Audits*, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Anchorage's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a state program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a state program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of ver compliance is a deficiency, or a combination of ver compliance with a type of compliance requirement of a state program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the *State of Alaska Audit Guide and Compliance Supplement for State Single Audits*. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of State Financial Assistance Required by the State of Alaska Audit Guide and Compliance Supplement for State Single Audits

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Municipality of Anchorage, Alaska as of and for the year ended December 31, 2019, and the related notes to the financial statements, which collectively comprise Anchorage's basic financial statements. We issued our report thereon dated July 27. 2020, which contained unmodified opinions on those financial statements. Our report includes a reference to other auditors. Our audit was conducted for the purpose of forming opinions on those financial statements that collectively comprise the basic financial statements. The accompanying schedule of state financial assistance is presented for purposes of additional analysis as required by State of Alaska Guide and Compliance Supplement for State Single Audits and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of state financial assistance is fairly stated in all material respects in relation to the basic financial statements as a whole.

BDO USA, LLP

Notes to the Schedule of State Financial Assistance For the Year Ended December 31, 2019

1. Basis of Presentation

The accompanying schedule of state financial assistance (the "Schedule") includes the state grant activity of the Municipality of Anchorage, Alaska (Anchorage) excluding its component unit, Anchorage School District, for the year ended December 31, 2019. The information in this schedule is presented in accordance with the requirements of *State of Alaska Audit Guide and Compliance Supplement for State Single Audits*. Because the schedule presents only a selected portion of the operations of Anchorage, it is not intended to and does not present the financial position, changes in financial position, or cash flows of Anchorage.

2. Summary of Significant Accounting Policies

Expenditures reported on the Schedule are reported on the modified accrual basis of accounting. Negative amounts shown on the Schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years.

3. PERS On-behalf

Anchorage has recorded \$13,976,667 in PERS On-behalf payments in the schedule of state financial assistance. This represents the PERS relief payments appropriated and transferred into the plan during calendar year 2019. In the governmental fund financial statements, on-behalf revenue and expenditures have been recognized in their proportional share of on-behalf payments within the calendar year under audit. However, in the full accrual financial statements (the government-wide and enterprise fund financial statements), GASB provisions prescribe that on-behalf contributions in a special funding situation may only be recognized during the measurement period in which the plan recognizes the contributions. For the Municipality of Anchorage, the PERS plan measurement period is July 1, 2018 through June 30, 2019, creating a six-month timing difference between the cash contribution and revenue and expense recognition by Anchorage in those funds. As a result of these perspective and timing differences, amounts reported on the financial statements do not agree to the amount reported on the schedule of state financial assistance.

Schedule of Findings and Questioned Costs For the Year Ended December 31, 2019

Section I - Summary of Auditor's Results **Financial Statements** Type of report the auditor issued on whether the financial statements audited were prepared in accordance with GAAP: Unmodified Internal control over financial reporting: Material weakness(es) identified? yes X no Significant deficiency(ies) identified? Independent Auditor's Report on Supplementary Information

Honorable Mayor and Members of the Assembly Municipality of Anchorage, Alaska

Our audits of the financial statements of the governmental activities, the business-type activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of the Municipality of Anchorage, Alaska (Anchorage) were conducted for the purpose of forming an opinion on those statements as a whole. The supplementary information presented in the following section of this report is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audits of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements as a whole.

Summary Schedule of Prior Audit Findings for the Year Ended December 31, 2019

State Award Finding and Questioned Costs										
Finding 2018-001	Special Tests and Provisions – Significant Deficiency in Internal Control over Compliance									
Finding	Public Works did not have controls in place requiring copies of certified payrolls to be obtained and retained for each period in which construction activities took place.									
Status	Public Works developed and implemented controls requiring contractors to submit certified payrolls, and for certified payrolls to be retained. This finding is considered resolved.
