5. Streamline municipal process to achieve Girdwood Comprehensive Plan Goals
6. Increase Girdwood local control and management of public land

Strategies and implementation timeline metric can be discussed at a future meeting. Many of the strategies have been discussed throughout the meeting.

2. Discuss Girdwood-based STR regulation potential

Assembly passed STR regulation however it would have been re-voted upon and failed. Mayor vetoed it before that could occur. Current direction for Girdwood could be for Girdwood only registration/regulation or for a program that is areawide and exercised based on volume of STRs in an area of the city. Currently Girdwood experiences higher density of STRs compared to the rest of Anchorage.

GHEC has discussed:

Low cost for registration to encourage all STRS to register

Fee for non-compliance in registration

Fee structure for nuisance STRs to re-register as mitigation of negative impacts to neighbors

Goal of fees is to pay for program administration.

Program should be as simple as possible

Discuss ADU regulation proposed by GHEC:

Goal of this is to encourage ADUS for Long Term Rental, not Short Term

Group discusses Overlay District and Improvement Districts briefly. Some ask if a member of the Planning Department could attend a meeting to explain options for implementing Girdwood-specific action. Planning department has been contacted and request written questions.
