**[EXTERNAL EMAIL]**

I doubt that I can make the meeting on June 5, so here are my thoughts--

Peter did a pretty good job. I went through Margaret's list, and he got almost everything. But:

1. Move the 8 from on top of Verbier Way. Too hard to see the Extension and path area.
2. Crow Creek Road needs identification
3. Change 10 from blue to green.
4. Is there a toilet at Town Square? The picture is there.
5. Abe's is blue on the list and black on the map. There are probably others that I didn't catch.
6. The punctuation in the red box must change. "If you have an emergency, call 911. Tell them which trail you are **on** and your approximate location relative to the trailhead." Should we say approximate location **from** the trailhead????

He did change the wording and the graphics on the right hand panel.

Kate

Our contractor has produced the attached Summer Trails map for review.

The scan attached doesn't show the side bar with trail etiquette, trail notes, etc as that is still under revision.

We'd like to meet and review this version on WED June 5 at 9AM. I'll formally post the agenda tomorrow.

Thanks,

Margaret

The map with the revisions made to the linework and the map content is attached, but the right-hand side of the map does not have revisions to the diagrams/art.

# GIRDWOOD SUMMER TRAILS MAP

**REVIEW  
VERSION  
2024-05-27**

Easy	Unpaved Paved		A well-defined route with paved or stable surfaces that is generally flat or gently sloped terrain. These hikes are generally suitable for anyone.
Moderate			A defined route with stable surfaces with moderate terrain. These hikes are for more conditioned novice hikers or those looking for more challenge.
Hard			A less developed route with variable surfaces with variable terrain. These hikes are for the experienced hiker.
Undeveloped			An undeveloped route with highly variable surfaces and terrain. These hikes are generally expected to challenge the experienced hiker.
Trail Change			An intersection where two or more trails meet. Trail names and level of difficulty may change at these points.
Main Roads			
INHT Network			Interred National Historic Trail Network
End of Trail			Do not continue. No route exists beyond this point.
End of Trail			Continue at your own risk. Routes beyond this point are not considered to be trails.

**IF YOU HAVE AN EMERGENCY CALL 911  
TELL THEM WHICH TRAIL YOU ARE ON, AND YOUR  
APPROXIMATE LOCATION RELATIVE TO THE TRAILHEAD.**
