## Septic System Owner-installer Agreement

The On-site Water and Wastewater Section (On-site) may issue an approval for a homeowner to perform work on an on-site wastewater disposal system to serve that individual's owner-occupied, single-family or duplex home if the homeowner meets and agrees to the following requirements:

1. The property owner and excavation equipment operator may perform work on no more than one owner-installation project in a 12-month period.
2. Owner's projected active involvement with the installation:  
\_\_\_\_\_  
\_\_\_\_\_
3. The name of the excavation equipment operator: \_\_\_\_\_
4. I agree that there will be no monetary compensation for installation services rendered.
5. The name of the inspecting engineer: \_\_\_\_\_
6. I agree to discuss the following items with the inspecting engineer:
  - a. Permit design criteria and specifications.
  - b. Inspection requirements set forth in AMC 15.65.070.
  - c. Advance notice given to the On-site Water & Wastewater Section for all required municipal inspections (AMC 15.65.070A).
7. I agree to have the project-specific On-site Wastewater Disposal System Permit available at the construction site for the duration of all related work.
8. I agree that if the system is an advanced wastewater treatment system (AWWTS), I will obtain additional installation instructions and approval from the equipment distributor.

As owner of (legal description) \_\_\_\_\_  
I agree that the information above is true and accurate.

Owner's printed name: \_\_\_\_\_

Owner's signature: \_\_\_\_\_ Date: \_\_\_\_\_
